If the total vote is affirmative to replace the deteriorated docks with new floating docks, members will be assessed \$15,700 (fifteen thousand seven hundred dollars) for each slip they own. These sums will be due and payable to UHYC at the above address by January 31st, 2010. UHYC will assist you in working with a local bank and information on financing that can be made available will be sent to you prior to December 5, 2009. You may take advantage of this financing or you may arrange your own financing with borrowed or personal funds. For our information, we request that you check one of the options below:
